

Air Conditioning & Refrigeration Training Station

Type STS-1

Following on the success of Sporlan's ChillSkills™ Online Training courses, Supermarket Seminars and the Specialist Training Program, Sporlan now introduces the **STS-1, Air Conditioning and Refrigeration Training Station**.

With development of the STS-1 prototype, training for the air conditioning and refrigeration industry can now be conducted in your own facility.

Features

- Complete vapor compression refrigeration cycle
- Duplicate mechanical and electrically actuated controls
- TEV, EEV, EEPR, HPC, CCPR
- Kelvin and PSK Controls
- SMART Pro/R Temperature and Pressure Sensor compatible
- Catch-All®
- See-All® and Sight Glass evaluation points
- Strategically located Ball Valves for evaluation and service
- Enhanced installation with ZoomLock™ Braze-Free fittings
- Compact and mobile
- Customization friendly, just ask!

Specifications

- **Refrigerant Charge:** R-404A
- **Electrical requirements:** 208-230/1/60 VAC/30Amp
- **Dimensions:** 52" L x 28" W x 82" H (approx.)
- **Operating Weight:** 450 lb. (approx.)

ENGINEERING YOUR SUCCESS.

⚠ WARNING – USER RESPONSIBILITY

Failure or improper selection or improper use of the products described herein or related items can cause death, personal injury and property damage.

This document and other information from Parker Hannifin Corporation, its subsidiaries and authorized distributors provide product or system options for further investigation by users having technical expertise.

The user, through its own analysis and testing, is solely responsible for making the final selection of the system and components and assuring that all performance, endurance, maintenance, safety and warning requirements of the application are met. The user must analyze all aspects of the application, follow applicable industry standards, and follow the information concerning the product in the current product catalog and in any other materials provided from Parker or its subsidiaries or authorized distributors.

To the extent that Parker or its subsidiaries or authorized distributors provide component or system options based upon data or specifications provided by the user, the user is responsible for determining that such data and specifications are suitable and sufficient for all applications and reasonably foreseeable uses of the components or systems.
