TO: MT SALES DISTRIBUTION

SUBJECT: SHAREPOINT WEBSITE UPDATE

As you may have seen in earlier announcements, the IT Department has been working to upgrade the Sharepoint server that we use for Micro Thermo collaboration. Most of the changes were completed last weekend.

The important difference for us is the **new URL address** for the Sharepoint site. Using the original web address *should* automatically redirect you. However, this does not always work – especially for anyone working outside of a Parker facility.

If you try to access the Sharepoint site and have difficulty with the old address, please use the new (direct) URL instead:

<http://polteams.phconnect.com/sites/ing/svd/ebu/mt launch/default.aspx>

You will be asked to sign-in. Use the same credentials you use for logging onto your computer. You may also want to update any bookmarks that you have saved.

Please let me know if you have any questions or problems.

Regards,

Eric Rist
Asst. Product Manager – RAC Electronics
Parker Hannifin – Instrumentation Group
