

The XTENDEX (NTI) KVM base kit (MT # 200-0099) allows access to a computer system from an additional remote console (keyboard, monitor and mouse). It includes a local unit, a remote unit, 1 cable kit and two power adapters.

This kit does not include the required additional cable, mouse, keyboard and monitor.

The cable used to interconnect the two control units must be of Category 5 UTP.

(4 pairs of wires connected to RJ45 connectors, pin to pin).

The maximum length of the cable is 1000 ft or 300 meters away.

Screen resolution can be increased on shorter distance.

Each VIP USB KVM KIT (MT # 209-0056) includes the following :

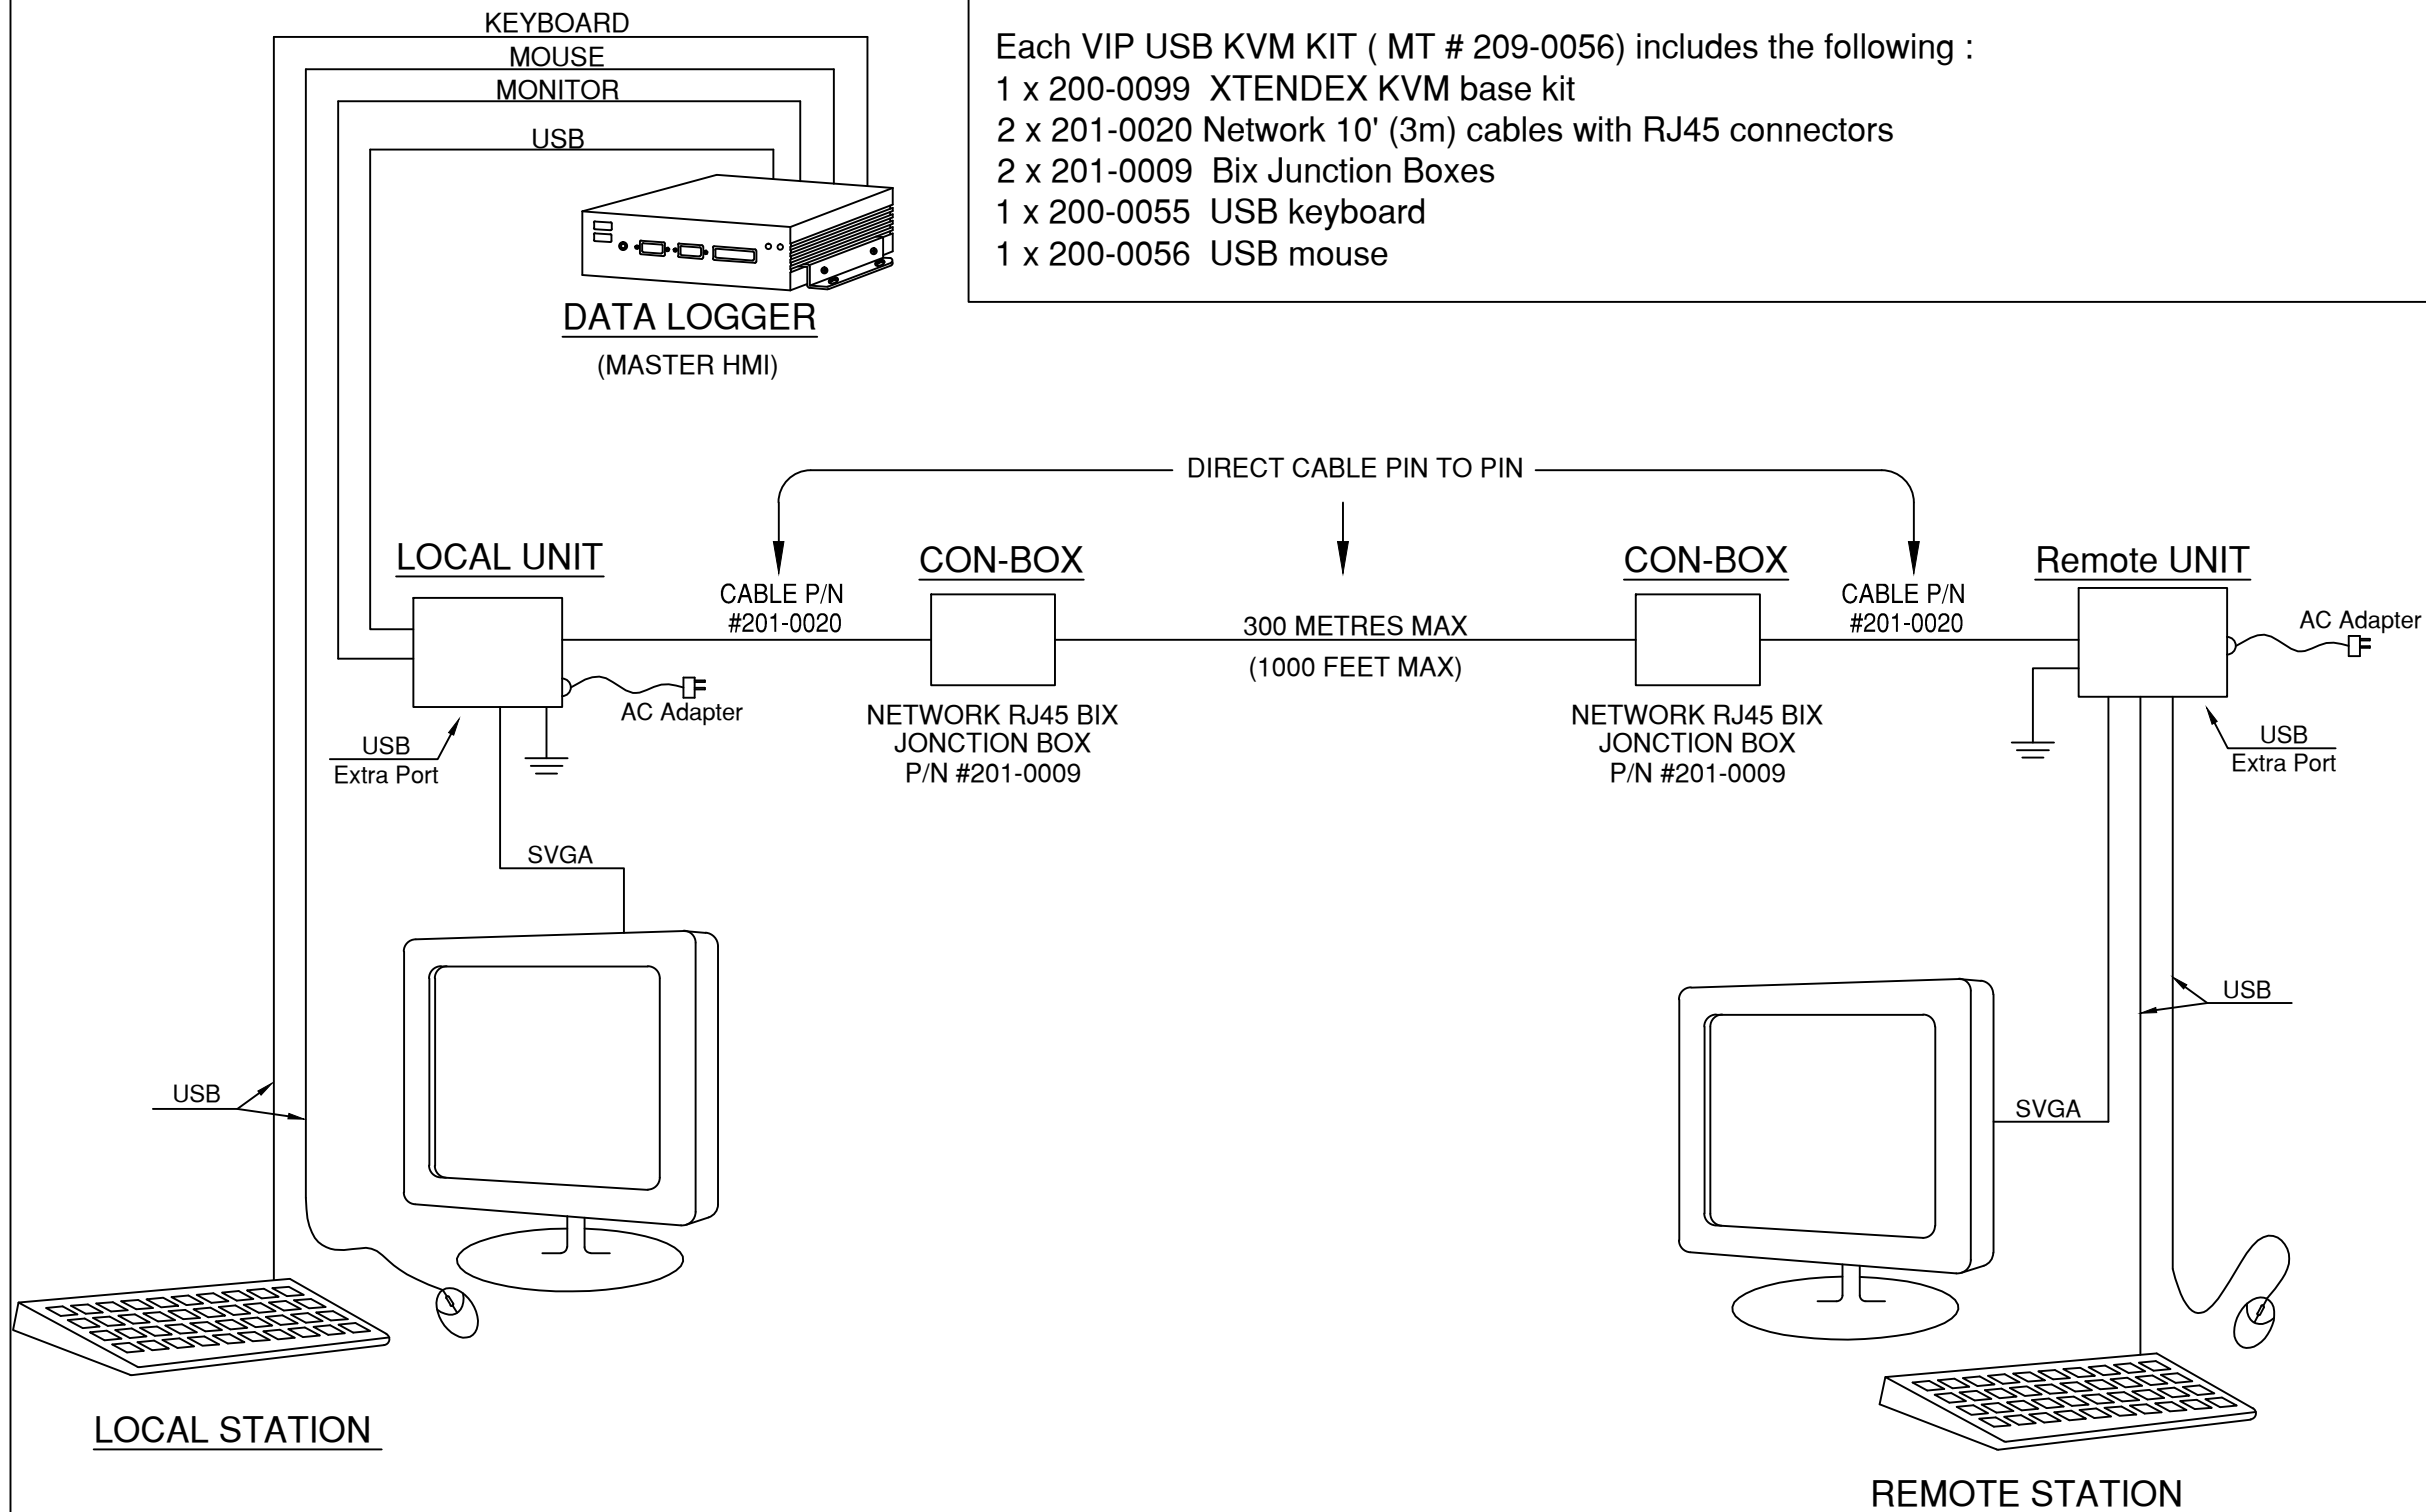

1 x 200-0099 XTENDEX KVM base kit

2 x 201-0020 Network 10' (3m) cables with RJ45 connectors

2 x 201-0009 Bix Junction Boxes

1 x 200-0055 USB keyboard

1 x 200-0056 USB mouse
